## Polish Antarctic Bibliography: Zooplankton (1976–1999)

This bibliography presents a list of 169 papers of Polish authors, treating on the Antarctic zooplankton. The majority of these papers (67%) concern Antarctic krill (*Euphausia superba* Dana), mainly its biology, ecology and physiology. Quite numerous papers by Polish authors concerning the biochemistry of krill as well as its fishing technique and food – processing are here omitted.

Key words: Antarctica, zooplankton, krill.

### List of papers

#### **Krill – *Euphausia superba* Dana, 1852**

- ASTHEIMER H., KRAUSE H. and RAKUSA-SUSZCZEWSKI S. 1985. Modelling individual growth of Antarctic krill *Euphausia superba* Dana. — *Polar Biol.*, 4: 65–73.
- AZZALI M., KALINOWSKI J. and CASTAGNANI R. 1992. Biomass of krill in the Ross Sea (Pacific Sector) in relation to BIOMASS FIBEX/SIBEX results. — *In*: V.A. Gallardo, O. Ferretti and H.I. Moyano (eds). *Oceanografia in Antartide*. Atti Seminario Internazionale, Concepcion, Chile, 7–9 Marzo 1991; 331–338.
- AZZALI M., KALINOWSKI J. and SAINO N. 1996. Estimation of biomass of krill *Euphausia superba* and birds and mammals census during the X-th Italian Expedition to Ross Sea, November–December 1994. — CCAMLR meeting, Bergen, Norway, WG-EMM-96/63, August 1996, Agenda Item 3: 21 pp.
- AZZALI M., KALINOWSKI J., GODLEWSKA M. and LANCIANI G. 1998. Ice influence on krill swarms formation. — *In*: P. Głowacki and J. Bednarek (eds), *Polish Polar Studies. 25th International Polar Symposium, Warszawa, 1998*. Inst. Geoph. PAS., Warszawa; 51–59.
- CHŁAPOWSKI K. and GRELOWSKI A. 1978. Hydrographic characteristics of krill fishing grounds explored during the First Polish Antarctic Marine Research Expedition on r.v. *Profesor Siedlecki*. — *Pol. Arch. Hydrobiol.*, 25: 535–559.

- CZYKIETA H. and KORONKIEWICZ A. 1978. Badania z zakresu biologii kryła przeprowadzone na r.v. *Profesor Bogucki*. — In: *Sprawozdanie z badań III Polskiej Morskiej Ekspedycji Antarktycznej w sezonie 1977/78*. MIR, Gdynia, 2: 5–29.
- CZYKIETA H., KITTEL W., WITEK Z. and WOLNOMIEJSKI N. 1986. Biological characteristics of the population of *Euphausia superba* Dana from the Southern part of the Drake Passage and the Bransfield Strait carried out during the BIOMASS-SIBEX expedition (December 1983 – January 1984). — *Pol. Polar Res.*, 7: 261–273.
