

Bulletin of the Polish Academy of Sciences Technical Sciences (BPASTS)

Volume 71, No. 5

October 2023

CONTENTS

Control, Informatics and Robotics

- e145765 **Eigenvalues assignment in descriptor linear systems by state and its derivative feedbacks**
Tadeusz Kaczorek
- e146474 **Robust hybrid synchronization control of chaotic 3-cell CNN with uncertain parameters using smooth super twisting algorithm**
Nazam Siddique, Fazal ur Rehman, Uzair Raof, Shahid Iqbal, Muhammad Rashad
- e147063 **Robust estimation based nonlinear higher order sliding mode control strategies for PMSG-WECS**
Awais Nazir, Safdar Abbas Khan, Malak Adnan Khan, Zaheer Alam, Imran Khan, Muhammad Irfan, Saifur Rehman, Grzegorz Nowakowski
- e146764 **Multi-server loss queueing system with random volume customers, non-identical servers and a limited sectorized memory buffer**
Marcin Ziółkowski
- e145763 **Model predictive ship trajectory tracking system based on line of sight method**
Anna Miller

Civil Engineering

- e146475 **A study on microbial self-healing concrete using expanded perlite**
Usama Bin Amjad, Muhammad Shahid Siddique, Taha Shahid, Ahmed Iftikhar, Saleh M. Alogla, Jawad Ahmad
- e146619 **Maintaining technical readiness in the context of military exploitation systems**
Anna Borucka

Material Science and Nanotechnology

- e147064 **Analysis of the influence of the geometric features of the filler on the thermal properties and structure of the composites in the polypropylene matrix**
Przemysław Postawa, Bartłomiej Jeż, Sylwester Norwiński, Aleksandra Kalwik
- e147059 **Mechanical properties and Mullins effect in rubber reinforced by montmorillonite**
Anita Białkowska, Małgorzata Przybyłek, Marta Sola-Wdowska, Milan Masař, Mohamed Bakar
- e147339 **Influence of plunger motion profile of high pressure die casting on the casting porosity and solidification rate**
Katarzyna Żak, Rafał Dańko, Paweł L. Żak, and Wojciech Kowalczyk

Mechanical and Aeronautical Engineering, Thermodynamics

- e146238 **Application of high-speed camera measurements for determination of energy losses generated in a vibrating belt of CVT transmission**
Waldemar Łatas, Adam Kot
- e147058 **Comparison of main geometric characteristics of deformed sphere and standard spheroid**
Vasyl Kovalchuk, Ivařilo M. Mladenov

Electronics, Telecommunication and Optoelectronics

- e146620 **Time-slot based architecture for power beam-assisted relay techniques in CR-WSNs with transceiver hardware inadequacies**
Mushtaq Muhammad Umer, Hong Jiang, Qiuyun Zhang, Liu ManLu, Muhammad Owais
