
CONTENTS OF CHEMICAL AND PROCESS ENGINEERING VOL. 41, 2020

ISSUE 1

Mirosław K. Szukiewicz, Differential quadrature method for some diffusion-reaction problems . . .	3
Agnieszka Szymaszek, Maciej Kubel, Bogdan Samojedon, Monika Motak, Modified bentonite-derived materials as catalysts for selective catalytic reduction of nitrogen oxides	13
Tomasz Kotkowski, Robert Cherbański, Eugeniusz Molga, Tyre-derived activated carbon – textural properties and modelling of adsorption equilibrium of n-hexan	25
Jacek Stelmach, Radosław Musowski, Verification of models of gas bubble break-up caused by eddies generated by a self-aspirating disk impeller	45
Marwa Saad, Anna Białas, Przemysław Grzywacz, Cezary Czosnek, Bogdan Samojedon, Monika Motak, Selective catalytic reduction of no with ammonia at low temperature over Cu-promoted and n-modified activated carbon	59
Karol Ulatowski, Julia Fiuk, Paweł Sobieszuk, Sterilisation of nanobubble dispersions	69

ISSUE 2

Barbara Larwa, Krzysztof Kupiec, Principles of modelling of slinky-coil ground heat exchangers .	81
Szymon Głowacki, Małgorzata Jaros, Mariusz Sojak, Weronika Tulej, Andrzej Bryś, Monika Witek, The impact of mechanical pre-treatment of wood biomass on drying rate	95
Martyna Borysiak, Elżbieta Gabruś, Adsorptive removal of cochineal red a dye from aqueous solutions using yeast	105
Michał Wrzecionek, Joanna Howis, Paweł Ruśkowski, Agnieszka Gadomska-Gajadhur, Optimizing the conditions of PGSu synthesis by simplex method	119
Krzysztof Kuśmierk, Andrzej Świątkowski, Tomasz Kotkowski, Robert Cherbański, Eugeniusz Molga, Adsorption of bisphenol a from aqueous solutions by activated tyre pyrolysis char – Effect of physical and chemical activation	129
Monika Jałowicka, Łukasz Makowski, Computational fluid dynamics modelling of short time bottles' filling process	143
Erratum to: G. Bińczak, R. Pohorecki, W. Moniuk, C. Możeński, Amine activators of CO ₂ absorption in industrial conditions, <i>Chem. Process Eng.</i> , 2019, 40 (2), 157–165. DOI: 10.24425/cpe.2019.126108	165

Erratum to: R. Kobyłecki, T. Matsuo, Y. Imaizumi, M. Maruyama, K. Omata, M. Horio, Managing of agglomerate formation in a utility scale pressurized fluidized bed combustor, <i>Chem. Process Eng.</i> , 2010, 31, 767–788	167
--	-----

ISSUE 3

Anna Story, Grzegorz Story, Zdzisław Jaworski, Effect of the carbomer microgel pH and concentration on the Herschel-Bulkley parameters	173
Ahmet Ozan Gezerman, Minimizing the explosion enthalpy of ammonium nitrate with polyethylene glycol and carboxymethyl cellulose to prevent terrorist attacks	183
Kamila Zabielska, Tomasz Aleksandrak, Elżbieta Gabruś, Influence of humidity on carbon dioxide adsorption on zeolite 13X.....	197
Krzysztof Kowalski, Elżbieta Gabruś, Dorota Downarowicz, Evaluation of energy saving possibilities in cyclic fixed-bed adsorption process	209
Marek Berezowski, Determination of Hopf bifurcation sets of a chemical reactors by two-parameter continuation method	221
Justyna Miłek, Determination optimum temperatures and activation energies of inulin hydrolysis by endo-inulinase <i>Aspergillus niger</i>	229

ISSUE 4

Magdalena Cudak, The effect of vessel scale on gas hold-up in gas-liquid systems	241
Beata Kończak, Korneliusz Miksch, Influence of calcium, magnesium and iron ions on the molecular mass of exoproteins during biogranulation.....	257
Iwona Łopianiak, Michał Wojasiński, Beata Butruk-Raszeja, Properties of polyurethane fibrous materials produced by solution blow spinning.....	267
Artur Poświata, Paweł Gierycz, Maximization of generated electric power in the TEG module at various heat exchange conditions	277
Maria Bartoszewicz, Maria Kulawska, Wiesław Organek, Kinetic investigations on esterification of maleic anhydride with butanols	293
Acknowledgments to Reviewers 2020	307
Contents of Chemical and Process Engineering, Vol. 41, 2020	309
