

CONTENTS

Fractional Composition of Dust Emitted From Boilers with Circulating Fluidized Beds – Jan Koniecznyński, Jacek Żeliński	3
Air Quality Index and Its Significance in Environmental Health Risk Communication – Małgorzata Kowalska, Leszek Ośródko, Krzysztof Klejnowski, Jan E. Zejda, Ewa Krajny, Marek Wojtylak	13
Distribution of Polyporus Fungi in Czaplinek (Drawsko Lake District, North-Western Poland) – Magdalena Kaczorkiewicz, Edward Ratuszniak	23
Role of Recycled Sludge Age in Coagulation of Colored Water – Jolanta Gumińska, Marcin Kłos	33
The Effect of Some Technological Parameters on the Diversity of Immobilized Microorganisms – Magdalena Zielińska, Agnieszka Cydzik-Kwiatkowska, Irena Wojnowska-Baryła	45
Seasonal Changes in the Number of Sulphate-Reducing Bacteria in the Water, Soil and Plant of the Wetlands near Olsztyn – Stanisław Niewolak, Renata Brzozowska, Karolina Czechowska, Zofia Filipkowska, Ewa Korzeniewska	55
Changes of Photosynthetic Pigments Concentration in the Synchronous Culture of <i>Chlorella Vulgaris</i> as an Indicator of Water Quality in Goczalkowice Reservoir – Anna Czaplicka-Kotas, Jolanta Lodowska, Adam Wilczok, Zbigniew Ślusarczyk	65
Changes of Chosen Chemical Elements Concentration in Alluvial Sediments: An Example of the Lower Course of the Obra River (Western Poland) – Marcin Słowik, Tadeusz Sobczyński, Zygmunt Młynarczyk	75
Geochemical Groups of Alluvial Sediments of the Lower Course of the Obra River: An Example of Using Cluster Analysis – Marcin Słowik, Tadeusz Sobczyński, Zygmunt Młynarczyk	87
Influence of Soil Contamination with Nickel and Liming on Lead and Manganese Contents in Red Clover Biomass – Beata Kuziemska, Stanisław Kalembasa	95
Disinfection of Meat Industry Equipment and Production Rooms with the Use of Liquids Containing Silver Nano-Particles – Michał Konopka, Zygmunt Kowalski, Zbigniew Wzorek	107
Stabilization of Post-Galvanic Sludge Using Portland Cement and Silica Fume – Małgorzata Osińska, Agnieszka Ślusarczyk	117
