Research in Progress

Beauty Illuminated

Barbara Miodońska, Anna Palińska
Despite their small size, miniature paintings in gothic manuscripts capture the whole world of the stories in Scripture

Briefly Speaking

Raider of the Lost World

Karol Myśliwiec, an Egyptologist, speaks about his greatest discoveries in the Nile Delta and hopes that might be fulfilled on future archeological missions

Research in Progress

Our Winged Relatives

Andrzej M. Kierzek
More than just a popular meal, the chicken serves as a model system for laboratory work in embryology, virology, and immunology. Interpreting these bird's complete DNA sequence is helping us better understand our own biology

Editorial	3	Genetics	34
Focus on		Our Winged Relatives, Andrzej M. Kierzek	
Slavic Studies	4	Microeconomics	36
Europe in Miniature, Ewa Rzetelska-Feleszko		Economic Thermometer, Elżbieta Mączyńska	
Evolutionary Ecology	8	Mineralogy	38
