No. 4 (12) 2006 The Magazine of the Polish Academy of Sciences

42

Briefly Speaking

Mankind Must Adapt

Zbigniew Kundzewicz

Claims that the climate is changing have become even more plausible and the weather forecast is dire

– says a co-author of climate reports

16

Focus on Paleontology and Archeology

Treasure of the North

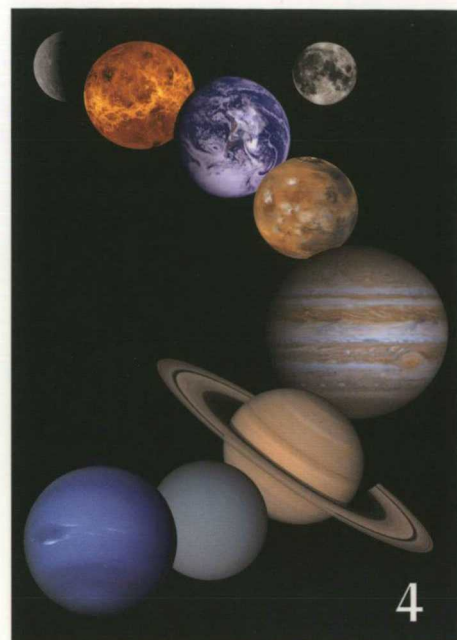

Wiesław Krzemiński,

Krzyszyna Nykiel

Termites in Polish soil? No joke!

Lumps of Baltic amber are a true

treasure-trove for entomologists

4

Focus on Solar System

Cosmic Cleanup

Krzysztof Ziolkowski

The recent discovery of more

and more planets circling

our own Sun as well

as distant stars has made

it necessary to reconsider

the meaning of the term "planet"

Editorial 3

Focus on 4

Solar System 4

Cosmic Cleanup, Krzysztof Ziolkowski

Psychology 8

Looking Down at the Rich?, Bogdan Wojciszke

Paleontology and Archeology 12

Treasure of the North, Wiesław Krzemiński, Krzyszyna Nykiel

Astrobiology 16

In Search of Alien Life, Ewa Szuszkiewicz, Franco Ferrari

Chemical Engineering 20

Unwanted Abundance, Krzysztof Warmuziński

Molecular Biology 24

Faithful Copyists, Wojciech Kuban

Mineral Commodities 28

Underground Treasures, Krzysztof Galos

Research in Progress 32

Archeology 32

Forgery on the Nile, Barbara Lichocka

Microbiology 34

Food as a Shield, Jacek Bardowski

Art History 36

Turning Silver into Gold, Piotr Jamski

Ecology 38

Nature's Property, Alicja Breymeyer

Microbiology 40

Magic Rods, Renata Godlewska, Elżbieta Katarzyna Jagusztyn-Krynicka

Briefly Speaking 42

Mankind Must Adapt 42

Highlights 46

Insight 48

Go with the Fluid Flow 48

Jarosław Mikielwicz, Jan Kiciński
